Honto — meaning **truly**, **really** — is an AI consultancy helping organisations turn intelligence into outcomes they can trust.

BRAND ESSENCE

Clear thinking. Real impact. A quiet confidence in what the work is for.

ATTRIBUTE	ATTRIBUTE	ATTRIBUTE
Clarity	Warmth	Rigor

The Nucleus mark.

Our logo is a wordmark with a living punctuation: a gold core surrounded by three satellites. It reads first as a period — truly, really — and second as a small constellation: an AI company orbiting an idea.

Logo anatomy.

A · WORDMARK

Manrope 700, lowercase, −0.045em tracking.

B · CORE

Gold filled circle. Diameter equals x-height of 'o'.

C · SATELLITES

Three smaller discs at 12°, 120°, 230°. Opacities 90/70/55%.

D · BASELINE

Core sits on the baseline; satellites extend above cap-height.

Give it room to breathe.

X = DIAMETER OF THE CORE DOT

CLEAR SPACE

Keep a margin equal to **x** — the diameter of the core dot — on all four sides of the lockup. Never let type, imagery or other marks enter this zone.

MINIMUM SIZES

ON BLUE FLOOD

Don't do this.

Don't stretch or squash the lockup.

Don't rotate or tilt the mark.

Don't use off-brand colors.

Don't add drop shadows or bevels.

Don't place on low-contrast backgrounds.

Don't set the wordmark in uppercase.

Don't substitute the typeface.

Don't rearrange elements of the lockup.

Three colors, two surfaces.

A disciplined palette: **Gold** carries personality, **Cool Blue** provides contrast and calm, **Mono** anchors everything.

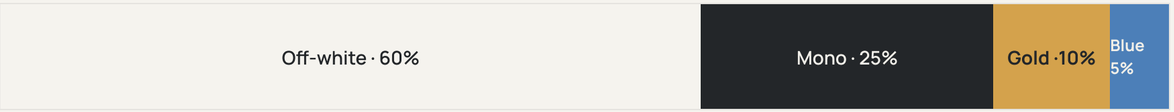
Usage & balance.

USAGE RATIO



Off-white and Mono carry most of the weight. Gold is the signal — reserved for the mark, key accents, and small moments of emphasis. Blue stays quiet and supports data, states, and link-like affordances.

ACCENT TYPEFACE

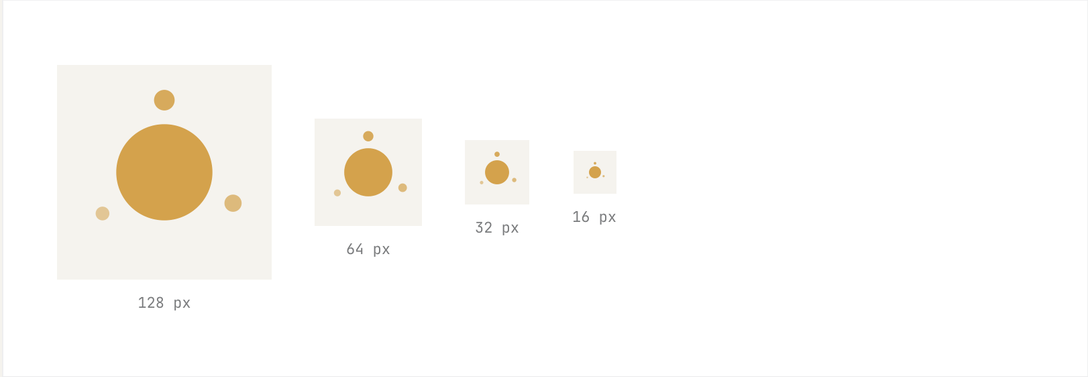
JetBrains Mono

Used for code, small caps labels, data tables, tags, footnotes. Never for long body copy.

```
const honto = {
  really: true,
  craft: 'honest',
};
```

The mark, everywhere.

SIZE PROGRESSION



At 16 px the satellites collapse toward the core but still read. The mark is always balanced — never clip satellites to fit a square.

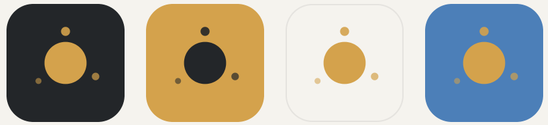
APP ICONS



Speak plainly. Mean it.

Honto means **really**. Our voice reflects that — direct, unshowy, and specific. We earn trust by being clear about what we know, what we don't, and what we're going to do next.

WE SOUND LIKE

→ Clear, with a warm undertone.

→ Confident about method; humble about outcomes.

→ Specific — names, numbers, timelines.

→ Plain English. Short sentences. Long thinking.

WE NEVER SOUND

✕ Hyped, breathless, "revolutionary."

✕ Jargon-heavy or intentionally vague.

✕ Cold, corporate, or defensive.

✕ Over-claiming what AI can do right now.

Dear María,

Thank you for the introduction last week. As discussed, we've outlined a four-phase plan for taking your internal copilot from a promising pilot into a dependable production system your teams can rely on.

We'd propose starting with a two-week discovery focused on the data foundations and the three highest-value workflows. Deliverables, timelines, and pricing are attached.

Happy to walk you through it whenever suits.

Truly,
The honto. team

Keep it truly honto.

When in doubt, choose the quieter option. The brand's strength lives in restraint — let the work speak, and let the dot do its small, deliberate job.
